

SPINRACE 40

DESCRIPTION

Fabric : 9017
Yarn : Nylon
Width : 152 cm
Pattern : Ripstop
Internal ref. : 090171520C07xxx
Length of rolls : 150 lm

END USES

FOR RACING PERFORMANCE
Grand Prix racers and fast cruisers looking for performance and durability.
 Exceptional burst and tear strength allow lighter cloth in stronger winds.
 High density weave and unique coating chemistry maximize wind propulsion and long-lasting low porosity.
 Double ripstop for high tear strength in handling and touching rough edges.
 Ideal for stability of asymmetric sails constructions.

Technical Specifications

Characteristics		Test method	Unit	Tolerance
Coated fabric's weight		ISO 2286-2	g/sqm oz	40 0.93
Tear strength	Warp	NGF 07-145	Lbs	4 mini
	Weft			3.8 mini
Tensile strength	Warp	ISO 1421	DaN/5 cm	38 mini
	Weft			33 mini
Elongation Under 20lbs	Bias	Internal Method	1/100 inch	16 max
	Warp			19 max
	Weft			28 max
Air Porosity		ISO 9237	L/sqm/min under 2000 Pa surface 100cm ²	100 max

Indice : 0
